EDUCATION

B.S. in Computer Engineering

University of Wisconsin-Madison

Torrey Pines High School San Diego, CA

Sep. 2026 - Present

Sep. 2022 - May 2026

HONORS & AWARDS

Google AI Professional Certificate (2026), Congressional Certificate of Special Recognition from US House of Representatives (2025), Certificate of Recognition from California State Senate (2025), Certificate of Recognition from California State Assembly (2025), Mayor's Certificate of Recognition from City of Encinitas (2025), Rising Star Award from Encinitas Chamber of Commerce (2025), Universal Design Learning Micro-credential Level 1 (2024)

PROJECTS

- Axol Assist - A digital accessibility company working on building accessibility web products for people with disabilities.
- Accessibility Surfer - Free Chrome extension that adapts websites to the user with dwell clicking, reading and focus modes, and font, spacing, and contrast controls so people with disabilities can browse the existing web more easily.
- Axol Work - Accessible employment platform inspired by LinkedIn and Indeed that lets people share accommodation needs upfront, ranks shifts by fit for job seekers, and lets recruiters post roles tagged with those accommodations.
- Surf Del Mar Website - Official website for the Surf Del Mar Festival, a four-day celebration of Del Mar's surfing culture and coastal heritage, highlighting event history, community stories, and sponsors
- Weather Report - Disguised safety mobile app that enables users to discreetly seek help in dangerous situations behind a functional weather interface. Won 2nd place at UC San Diego TritonHacks Hackathon 2025.
- Freddy Takes Flight - Two-dimensional style video game based on Torrey Pines High School campus and mascot. Presented to San Dieguito Unified High School District leadership.
- DODO - Android mobile app using computer vision to identify endangered species from photos, logging verified data for conservation research. Submitted for UC San Diego TritonHacks Hackathon 2024.
